A very stormy morning on Monday consequently a very small school only 36 children in attendance.
J Hanson Esq. B.S.B. visited during the morning and stayed to hear the children sing "The Railway Train"
Results of the Monthly Examination of the First Class, Teacher Miss Rhodes, Assistant.

This class showed marked improvement especially in Reading, Farrold's "Learning to Read 1st Series" 16 pages and Mr. Culloch's 2nd book to page 10 were the lessons learnt and these were well read by 12 out of 17.

In Writing the small letters and capitals to "I" were given from memory.
When I examined this class at admission the writing was extremely deficient so that for the time I consider the progress in this subject very satisfactory.
In Arithmetic 3 sums of 4 units Addition were given and figures to 20. 11 out of 20 had 2 or more right. The subject was scarcely known at all by any in the class at admission, consequently the standard of the "Scheme" is far beyond the children at present. The class results show the Teacher to have been very painstaking and energetic.
2nd Class Reading. The Alphabet, small and capital letters and 10 words of 2 letters Collins Reading sheets 1,2. 11 out of 18 in this class did not know any of the Alphabet at Admission. There are now 18 in this class and off this number 11 know the above. Three boys and one girl were absent.
Writing. The small letters within the lines a,c,e,I,m,n,o,r,s,u,v,w,x from copy
This class knew nothing about writing with the exception of 3 children when admitted, 8 children formed the letters very well.
Arithmetic. As the children of this class could neither make figures nor name them at sight, cyfihering on slates could not be given so that easy Mental Arithmetic of two units was given and the figures to 9 taught.
The children of this class are far behind the "Scheme" but I consider satisfactory progress to have been made for the times.
This class I have taught myself, as being the most backward for their age, 5 of them were 6 years of age when admitted and knew nothing having only just commenced attending School.
3rd Class. Taught by Moniter, S.E.Foster. Examined all children who were 4 and 5 years of age.
Reading. Letters taught since Sep 10th a,b,c,e,g,h,i,k,,m,o,s,t,u,v,w,x,y,z. of 16 children examined, 10 knew all, or all but one letter of the above, 2 knew 13, 2 – 6 and 2 less than 6.
Writing. a, o, i, 3 were very well, 5 fair and 8 could not make them at all.
Arithmetic. Counting up to 12 and addition table of 1.
The Reading showed most progress the Teacher having taken most forms with that subject. Writing must have more attention paid to it.
The Mistress absent on Thursday having permission from the School Management Committee to attend the Government Examination at former school.
Mr Taylor visited whilst absent and examined Register.
Miss L Rhodes absent on Friday being ill and S.E. Foster absent on Friday afternoon being ill. Taught the marching song "The north wind doth blow" and the hymn "Now the day is over".

Sarah E Foster absent on Monday from illness.
Scarlet fever, Scarletina, Measles and Whooping cough prevalent in the neighbourhood, many scholars absent on this account. On Friday afternoon 16 absentees from sickness, who were present during the week.
Tuesdays Natural History Lesson "Ostrich".
Thursdays Object Lesson "Lead Pencil", both given by the Mistress, Teaching staff attending.
Taught the song "Sing we all merrily Christmas is here".
Some improvement has been made in cleanliness and tidiness by the scholars but some still do not think they should wash in the afternoon. Try to cultivate this habit by making the dirty children notice themselves in the looking glass before and after washing.

12/11/1877 -16/11/1877

Teaching Staff punctual and present all the week.
The attendance very small this week only 48 children being present at all, 22 being absent from illness and 3 on account of having fever in the house, Scarlet fever is very bad round the school and two scholars have been taken to the Fever Hospital.
