Monday 10 Sep 1877

Thornton Lane (Chapel Green) Board School.

I, James Mills, Certified Teacher opened the above school under the Bradford School Board this day at 9 o'clock.
Admitted during the day 48 scholars, not one of whom had passed standard 4 and a large proportion of them half timers.
Not much work was done in the forenoon beyond roughly classifying the scholars and giving them some work just to keep them engaged.
Afternoon was spent in a somewhat similar manner and on getting our working materials ready.
Visited by Mr Hanson.

Appointment: Mr George Marsden began also his duties as Assistant Master in my department (Mixed).
J.C. Knowles commenced as Monitor in same.

Tuesday 11 Sep 1887

One or two admissions today.
Did a little work, but find it difficult to obtain the standards of the children even by sending to the Neighbouring schools.
Drew up a rough time table.

W/e Friday 14th Sep 1877

School visited by Mr Hanson yesterday.
After one week I may say that I find the scholars very backward in their attainments. Even those who have been presented in any standards. I find them still more rough, uncouth, talkative and disorderly. They are very untidy and dirty in their persons, and the clogs make a very great noise in school. Some of them seem to know what stand, sit and such orders mean but most of them pay no attention to the first or scarcely even third of such orders.
They shout for everything they require and what their neighbours may or may not require.
Everything must be told to the teacher and at the top of their voices. Most of them have the greatest desire to run instead of marching when leaving school or entering school and many of them accomplish it and fight for their caps, etc.
With regard to the subjects, Reading, Writing and Arithmetic I cannot say which is the worse being all so indifferent, but as Reading is on most places more cultivated than either of the other two I may (?) to say that here it is very indifferent indeed and configuratively speaking the worst from the information obtained from the neighbouring schools I find that a large number of those admitted are those who in those schools failed in all 3 subjects.
The scholars have been arranged into 3 classes in the following manner – those prepared for standard 2, a second, and those for standard 1 and a 3rd class.
There has been no sewing during the week and no singing.

The monitor, Knowles, is a very useless one so far, not that he is unwilling or unruly but he seems to have no knowledge of schools of this kind and of the work done and the manner in which it is done.
Have arranged that the Girls shall enter school by the same entrance as the Infants enter and the Boys by the door at the opposite end of the school.

W/e Friday 21 Sep 1877

On Monday admitted (*no number given*), several being half timers.
Visited by Mr Hanson.
Maps have been hung in large room and class rooms: some sensible diagrams also.
Hat pegs are being put up.
Teachers have been in poor time this week and worked very diligently.
Laid before the assistant Master my method of teaching, Reading in the lower classes, Writing in the lowest class and Dictation in all the classes.
The children are rather slow in picking up the simplest method of calling out their numbers instead of answering to their names when Registers are marked.
Have visited, so far as possible without resorting to corporal punishment, upon having boots blacked in the morning, clean hands, and faces and more especially hair combed and several sent home for home lesson books to do, slates. Endeavouring to induce them to procure services – books and strap or satchel instead of slates.
No sewing or singing this week.
Partly taught words of hymn and song.
School visited on Monday by the Superintendent of schools.
Drawing: Commenced teaching drawing yesterday.

W/e Friday 28 Sep 1877

Admitted about 25 on Monday and one or two on Tuesday.
Visited by Mr Hanson, who spoke with me concerning sewing arrangements.
Many children very dirty this week, especially their hands and some half timers with dirty blouses.
Still a large number came with boots being cleaned and hair smoothed.
No sewing or singing this week.
Appointment: Received notice on Wednesday that Miss Wade, Assistant Mistress in the Feversham St. School was appointed Assistant in my department in place of George Marsden and she will conduct the sewing in this department.

W/e 5 Oct 1877

Miss Wade commenced her duties as Assistant Mistress on Monday last in place of Mr G Marsden.
Admitted 8 children on same day.
On Tuesday visited by Mr Hanson, Member of the Board, who spoke to me about giving the monitor C Knowles private instruction.
On Thursday morning at 10 o'clock Miss Wade requested permission to go home being ill. She returned today at 2 o'clock being absent 1 ½ days.

Attendance fell of this afternoon on account of Wibsey Fair – great number requested to leave before the usual closing hour but informed Marked Requesters at 2 pm and dismissed school at 4pm. Closed school at 4.10.
Sewing began on Monday afternoon from 2.20 to 4.15. Also taught on Wednesday afternoon and this afternoon.

Copy of Report for 1877:

Mixed and Infant School.
These two departments have only been opened about 5 months and have had very rough material to work upon. Satisfactory discipline has been established and there is promise of good progress to be made in the ensuing year. The Infants school cannot be considered a separate department if the mistress teaches sewing in the mixed school. A urinal should be added to the offices used by the boys.

<u>Report for year ending January 31st 1879.</u>

Mixed School: The master has apparently worked hard and conscientiously and has had a rough material to work upon.

The order is only pretty fair the children especially in the third and fourth Standards being inclined to copy and talk. Stricter discipline must be enforced.
A slight improvement has been made in the work but the results are still moderate. The arithmetic especially being poor. The Geography was pretty fair, Grammar weak in the upper standards. Sewing and Singing are good.

J.C. Knowles has passed well.
My Lords regret that the medical certificate forwarded on behalf of A Hill is not sufficiently satisfactory to warrant her admission to the office of Pupil Teacher.
The managers must pay especial attention to the state of K Jennings health.

Staff of Teachers of Mixed Department 1879.

Report for 1879 – 80 Mixed School
Though much hard conscientious work appears to have been done in the school during the past year there is no appreciable improvement in the children's acquirements. The discipline is better than it was last year though it is not yet satisfactory. Reading has improved a little. The spelling of the second and fourth standard is poor. Arithmetic is weak above the first standard. The grants for Grammar and Geography have been barely earned. The former subject is poor in the three upper standards.

Remarks.
My Lords have upon this occasion allowed payment for scholars presented under article 20 (a) 1 in Standards below that prescribed by the Bye Laws for partial exception from school attendance. Henceforth however payment under that article will be made in accordance with the enclosed memorandum. General improvement will be expected next year in the mixed school. A deduction of one tenth has been made from the grant under article 32 (b).
John C Knowles, Kate Jennings have passed well and Thorp Scholey fairly. Scholey must take second years papers next year. Mr Holmes, the issue of a certificate to Mr Holmes is deferred for better results.

Standard 1b register, April 9th, Miss Jennings errors in registration but made right same time by me.
Attendances were marked right but were added up wrong.

9 February 1883

Holiday on Friday for the Examination and holiday on the Tuesday for Shrove Tuesday.

16 February 1883

Names transferred to new register.

23 February 1883

Miss Milnes absent from 19th to 23rd inst.

2 March 1883

J. C. Knowles left school after completing his apprenticeship.

9 March 1883

Mr Bartle commenced as Assistant on Monday 5th in place of Knowles

16 March 1883

Mr Bartle absent half a day Wednesday.
Drawing examination on March 9th.
Easter holiday from March 22nd – 27th.

29 March 1883

Assistants assembled children rather late.
Taught arithmetic to Standard 4 in presence of teacher.
Miss Lucy Irons commenced as a monitor in this department 12th March 1883.

Report for 1882-1883.
"Mixed School. There is much that is unsatisfactory in the condition of this school. The discipline is not better than fair and there is much want of order and method. The first standard write well and the second read and spell fairly well but the rest of the work is all more or less unsatisfactory and deficient in intelligence. Out of 193 examined in the second, third, fourth, fifth and sixth standards only eleven did a common sense sum. Mechanical operations also are inaccurately performed and bad spelling is frequent, many papers having tem mistakes and several fifteen.
The singing too might be better.
Great improvement will be expected next year in the Mixed School as a condition of an unreduced Grant (art 115, code of 1882).

J.C. Knowles and E Johnson have passed fairly.
Knowles should be informed that he is now qualified under article 79 but can only qualify under article 60 by passing satisfactorily the examination specified under article 91.
Miss Waddington will shortly receive her certificate.

Teaching Staff.

Head teacher:	J. T. Holmes, 2nd class
Assistant:	Miss Waddington
Assistant:	Miss Milnes
P. Teacher:	J.C. Knowles, 4th year old 5th year
P. Teacher:	Esweld Johnson, end of 2nd year old 3rd.

Signed: *J. Arthur Palmer*, 3 April 1883.

Examined Standard 3 in Geography and Arithmetic this week, both subjects were badly done.
The Grammar of the girls in Standard 3 (Miss Irons) was fair.
Mr Bartle, complaint of corporal punishment.

6 April 1883

Examined Standard 2 (Miss Waddington's) class. In arithmetic and Geography both subjects were unsatisfactory.
Miss Irons appears to have very little control over her class of about 30 children.
Examined Milnes class in Spelling and arithmetic. The arithmetic I found very weak indeed, only 45%, but spelling was considerably better, result 66%. The teacher has worked very hard with her class and in my opinion, formed very carefully noticing her working, she is a very good teacher. Her discipline too is good.

13 April 1883

Received a circular to say that J.C. Knowles had been appointed assistant at Bradford Moor Board School. He left here on March 2nd, see page 60.
Mr Bartles class are backward in sums, 46% passing 2 out of 3 given. The tables too are backward.
Complaint about corporal punishment today, Mr Barker.

20 April 1883

Received geographical and historical readers.
Examined Johnson's boys in Reading and Mental arithmetic.

24 April 1883

Returned useless and worn out books, Reading: Geographical Royal and P. T's books to office as the repetition is in some of them. One of each sort must be sent for back to school for teachers use.

25 April 1883

Registers called and examined: *Signed*: *Arthur Haweridge*

27 April 1883

Average for quarter ending this week, 211.
Have entered up everything in summary and all other books.
Arrears in fee book are paid quarterly by Union Offices, Manor Row.

I (J.T. Holmes) resign as headmaster, leave today.

4 May 1883

Entered on duties at this school, 30th April.
Found a great want of punctuality in the scholars especially so in the morning.
The children, generally speaking, are willing and obedient but fail much in matters of discipline, as marching, turning, etc.

24 May 1883

I have examined the third and fourth standards in Reading, Writing and Arithmetic.
The Dictation is weak throughout both in the arithmetic and dictation there were evidences of carelessness as setting down wrong figures, misspelling words like from, leaving out the "ed" of a past tense, etc.
From 11 May to May 18 the children had the usual holiday for Whitsuntide.

4 June 1883

The heat has been much felt in School.
Several boys have gone out of school sick, chiefly I believe for this reason.
As far as I can judge the order is better especially during the morning for changes of lessons. It may be made still better by perfect punctuality on the part of every teacher,

15 June 1883

Last Tuesday the sewing instead of occupying the girls all the day was taken in the morning only and in the afternoon of Tuesday, Thursday afternoons lessons were taken. Sewing was taken on Thursday.
A change was also made in the drawing, the boys having their lesson in that subject while the girls had needlework.

29 June 1883

Miss Lupton visited school yesterday to enquire into a case where a girl wished to attend half days. The weather was very sultry and she remarked on the deficiency in the ventilation.
Both teachers and scholars seem to have suffered from the oppressive weather.

6 July 1883

During the last three days Mr Bartle has been absent on account of the Scholarship exam.
The head teacher was away on Tuesday through sickness.
In many cases where children have been irregular the reason given by parents has been illness.

During Mr Bartle's absence the fourth, fifth and sixth standards have been grouped and taken by the head master with slight deviation from the time table.

16 July 1883

During the last few days several complaints have been made about the assistants having inflicted corporal punishment. I spoke to the assistants and pointed out the regulations of the Board with respect to this

25 July 1883

During the last fortnight I have had reason to complain of want of punctuality on the part of E Johnson, 3rd year pupil teacher. I have frequently called his attention to this on several occasions.

20 August 1883

Assembled after the Midsummer holiday.
In the morning an attendance of 177

30 August 1883

Gave an examination in Arithmetic, Grammar and Dictation to Standards 3,4,5,6.
Much paper work seems needed to ensure a fair degree of neatness in setting down the work.
Owing to the surroundings of the children while doing their Home Work this part of their work does not benefit them to such an extent as might be looked for under more favourable conditions.

6 September 1883

According to the usual practice the school was closed on the afternoons of Tuesday and Wednesday on account of Horton Feast.
The average for the week will be low for the same reason.

12 September 1883

Registration examined: *Signed: Arthur Haweridge,* Assist. Supt. of Board Schools.

W/e 21 September 1883

The writer, J.W. Breare, commenced duties as Head – master in this school on Monday.
I find the children very rough and rude.
A great want of unpunctuality is observable among the children.
The discipline of the school is at a very low ebb.
There has been a large amount of undue noise when assembling, much of this might be prevented is assistant and junior teachers looked better after their own classes.
During the week I have examined the 1st and 2nd standards in the 3 r's and find all generally weak.
Reading is hurried, little words often omitted, the "s" left out and put in when not required.
Mr Haweridge visited on Monday.
Mr Moorhouse, member of School board visited the school on Tuesday to distribute the Drawing Prize, etc.
Admitted 5 children during the week.

W/e 28 September 1883

Children a little more orderly in school than last.
I find yet that a large amount of noise might be avoided if teachers would check children, who work aloud as it were. This is especially the case with Johnson and Irons. A great amount of noise is made by Johnson's class.
Teachers appear to be working well with their respective classes with one exception.
Mr Taylor, Superintendant of Schools and Mrs Bannister, Lady Superintendant visited the schools on Thursday afternoon.
Mr Griffiths called on Friday afternoon.

W/e 5 October 1883

Since the meeting against Home Lessons was held in Great Horton, I have experienced great difficulty in getting Home Lessons done.
Work has been going on satisfactorily during the week.
In Standards 3 and 4 there has been a large amount of noise during the lessons. The teachers of these lessons apparently not noticing it.
Johnson does not appear to take interest in his work, which he ought.
Mr Hanson, Vice chairman of the board, called this (Friday) morning.
Admitted four boys during the week.
Poor attendance on Friday afternoon owing to a local fair.

W/e 12 October 1883

During the week I have examined Standard 4 and find it very weak.
Have spoken to the teacher (Johnson) about the weak points. Took the class myself on Tuesday and showed the children their papers, pointing out where they might improve.

Order a little better during the week.
Four children admitted on Monday.

W/e 19 October 1883

Received notice on Tuesday that the Ninth month exam would be held on Monday p.m. and Tuesday a.m., 22nd and 23rd Oct.
I found an improvement in the order during the week as the teachers begin to fall into my ways.
Mr Anderson, music instructor, visited the school on Wednesday afternoon at 2.15 to hear the singing. He will visit the school on the third Wednesday in each month.
Mrs Bannister, Lady Superintendant, visited the school, this Friday, to examine the children's sewing.
One child admitted on Monday.

W/e 26 October 1883

The Ninth Month exam (Boards regulations) was held on Monday afternoon and Tuesday morning.
The order of Standard 4 is still only poor. This standard contains a few of the worst boys in the school.
Mr Smith, Superintendant of visitors, called on Thursday afternoon.
Mrs Bannister, Lady Superintendant, called this (Friday) morning.
Received notice on Monday that Miss Nichol has been appointed Assistant Mistress (vice Miss Waddington, who is being transferred to Greenfield Board School). These changes take place on Monday 29th October.

W/e 2 November 1883

Miss Nichols commenced work in this department on Monday, vice Miss Waddington transferred.
I have been again compelled to speak to Johnson about his behaviour in school. I have also had to speak about alterations in Registers.
School closed on Thursday owing to the building being used by voters.
Johnsons lessons not prepared this (Friday) morning.
Left school, by permission, at 3p.m. (Friday). Mr Bartle in charge.

W/e 9 November 1883

Teachers all at work with their respective classes, with exception of Johnson, who has had charge mostly of Standard 5 and 6, while I have been taking Standard 4 which is in a very backward condition.
Received the Superintendant report upon the result of his exam. Fault is found with nearly every subject. Percentage of passes 14.1.
Mr Haweridge, Assistant Superintendant, called on Monday morning.
Have had to punish children on several mornings for late coming.

On Monday night I spoke to all teachers as to the way in which I wanted each subject teaching.

W/e 16 November 1883

I have had to speak several times during the week to Miss Irons about careless preparation of Home Lessons.
Miss Milnes has been late several times during the week.
Mrs Bannister, Lady Superintendant, called on Thursday afternoon.

W/e 23 November 1883

The Time table has not been strictly adhered to during the week as I have been examining Standard 2 and 3. I find an improvement in neatness in Standard 2, though great improvements is required in accuracy.
I have spoken to Mr Bartle about the weak points of his class. I find Standard 2 rather careless in Reading and inaccurate in answering their Grammar.
Stormy weather during the week.
Mr Anderson, music instructor, called on Wednesday afternoon.
Mr Taylor, Superintendant, called this (Friday) morning.

W/e 30 November 1883

Registers called and examined. *Signed: Arthur Haweridge* Asst. Supt. of Schools.

Work as usual during the week.
As noted above Mr Haweridge called on Friday and examined Registers.

5 December 1883

Visited school at 8a.m., P.T's lessons. *Signed: Arthur Haweridge*

W/e 7 December 1883

On Monday as I was suffering from ulcerated through I grouped Standards 4,5,6 and gave them in charge to Mr Bartle. Johnson taking Standard 2.
For the same cause I was away from school on Tuesday and Wednesday.
Mr Haweridge visited the school on Wednesday morning.
Johnsons listlessness in teaching appears to have returned.
I heard Miss Irons give a lesson on Reading and Johnson on Dictation. Pointed out certain faults and criticized the whole lesson.

W/e 14 December 1883

Mr Taylor, Superintendant of Schools, Mrs Bannister, Lady Superintendant and Mr Haweridge, Assistant Superintendant visited the school on Tuesday morning.
Mr Taylor, for the purpose of examining Scripture and hearing the P. T's give lessons.
Mrs Bannister examined the garments etc made the girls and Mr Haweridge examined the P. T's in Scripture.
Miss Milnes wastes a lot of time in Standard 1 in nearly every lesson as she is very long after change of lesson before she commences.
Miss Irons "History and Geography" badly prepared on Tuesday night.
Wednesday morning very wild, many children away from school.

Registers called and examined. *Signed: Arthur Haweridge.*

W/e 21 December 1883

Work as usual during the week.
The children have attended rather irregular during the week, consequently the average is lower than it has been for some time.
The order in some of the classes, through the teachers thoughtfulness, is not so good as it might be.
Closed the school at 4.30 (Friday for the Xmas holiday.

W/e 11 January 1884

School opened at usual time on Monday after a fortnights holiday.
A few children have not yet returned to work after the holidays.
Mr Haweridge called on Tuesday at 8.20.
Miss Irons is careless as regards the discipline of her class.
Mr Bartle late to school on Thursday afternoon.

W/e 18 January 1884

Some children still away from school not having returned since the holidays.
On Monday I received Form 9, Schedules 9.
I still find Standard 4 (teacher, Johnson) very backward in their work.
Mr Priestman, member of School Board, called on Thursday morning.
On Thursday morning Mr Hanson, Chairman of School Management Committee called.

W/e 25 January 1884

Four girls (Register 1) Nos. 1,8,20,50 were marked absent although present. Week January 18.

Received notice on Monday that the Annual Exam would be held on the 28th February and 3rd March by Mr Wilson HMI.
Poor attendance on Wednesday owing to rough weather.
Examined Standard 2 and 3 on Thursday.

W/e 1 February 1884

The Government exam was held at the Parish Church Schools on Saturday last and was attended by Johnson, 3rd year and Irons from this school.
Weather still stormy.
I have had charge of Standard 3 mostly during the week.
Miss Irons lessons prepared only fairly once or twice during the week.

W/e 8 February 1884

Mr Priestman, member of the School Board, called on Wednesday morning.
Attendance during the week rather poor owing to stormy weather.
Mr Hanson and Mr Priestman called on Friday morning.
Miss Milnes left school ill on Friday morning and was absent the rest of the day.

W/e 15 February 1884

Mrs Bannister, Lady Superintendant, called on Wednesday morning.
I find a large amount of carelessness, inaccuracy and want of neatness in the work of Standard 4. Johnson, the teacher of the class does not appear to have the interest in his class which he ought to have.
Lucy Irons, monitor, absent from duties today (Friday), cause sickness.
The children through some cause or other are just now, when their attendance is very much required, attending rather irregularly.

W/e 22 February 1884

Work as usual during the week.
I have been working in several lessons with Standard 4.
Lucy Irons returned to work on Monday.
The attendance is an improvement upon last week.

Mr Haweridge, Assist. Supt. called the same morning.
I examined Standard 1 on Monday.
Mr Priestman and Mr Robinson, members of the School Board, called on Tuesday.
I examined Standard 2 in the 3 r's on Thursday. Results in Writing and Arithmetic very unsatisfactory.
Mr Bartle away from duties on Thursday afternoon by permission.

W/e 11 April 1884

School opened at usual time each morning during the week.
Johnson is very listless and careless as regards his work in school. He just manages to avoid being disobedient.
Mr Priestman, member of the School Board, distributed the prizes won by the scholars during the year.

Mrs Bannister, Lady Supt., called on Wednesday morning.

Report of the HMI for year ending January 31st 1884
"The school is in much better condition than it was a year ago. The Reading of the fifth and sixth Standard and of the boys of the fifth Standard is good. That of the second and third Standards is fair though in the third Standard it is too low in tone. That of the girls of the final Standard is fair and the fourth Standard also read fairly. On the whole there is a want of intelligence, especially among the girls. The handwriting of the final Standard is very good and deserves special commendation. The Writing of the second Standard is fairly good and that of the third and sixth Standards fair, but the fourth and fifth Standards write poorly.
Spelling is good in the first and second Standards and fair in the third, fifth and sixth Standards but the fourth Standard requires attention.
Composition is fair in the fifth Standard but not so good in the sixth Standard.
Arithmetic is good in the first, second and sixth Standards, fair in the third standard but only moderately fair in the fourth and fifth Standards.
Mental Arithmetic is fairly good.
Recitations and Geography are well taught but Grammar is not good and must be improved or the higher Grant will not be obtained for English next year.
Needlework is very fair.
In Singing the Modulator and Time exercises are very fairly done and the Ear test give fair results. Somewhat better results will be looked for next year.
The present state of the school is not quite so good as would appear from the Schedules as there are many bare passes.
In estimating the Merit Grant, I have however taken into account the two changes of the Head Teacher and also the great improvement which has been made in the attainments of the scholars and recommend the Good Merit Grant in the confident expectation that a considerable further improvement will take place before the next examination.
The class rooms in this school are all very small and each is counted as accommodating fifteen scholars at eight sq. ft. of floor space for each.
On a visit without notice I found that forty four children were crowded into one class room and thirty eight into another. When the scholars are packed into tiny rooms in this manner the premises are unhealthy, ill ventilated and do not furnish sufficient accommodation for the children. See Article 96 (a).
There must in future be no overcrowding of the small classrooms in the Mixed School".

E Johnson has passed fairly but should attend to Arithmetic and Mensuration.
L Irons, Needlework.

The Department agrees to the engagement of Lucy Irons (3 year) and Sophia Robinson as pupil teachers in fulfilment of the requirements of the Code (article 53).

Staff for year 1884 – 5

On Thursday and Friday I examined Standards 1,3 and 4.

W/e 9 May 1884

Johnson away from school on Monday afternoon by permission.
I was away from school the whole of Wednesday.
I took Standard 3 in Reading on Monday.
I find a number of the children leaving out or misplacing the letter "s".
The girls read far better than the boys.
Received the results of the Drawing exam on Wednesday, 23 goods, 5 excellent.

W/e 16 May 1884

Work usual during the week.
I have very great difficulty in getting Home Lessons done in a number of cases.
Robinson's Home Lessons only fairly prepared

W/e 23 May 1884

On Monday I took charge of Standard 4, Miss Hardaker taking Standard 1 and S Robinson going to assist Miss Milnes with Standard 3.
Mr Hanson and Mr Moorhouse, members of School Board, called on Friday morning.

W/e 19 July 1884

Teachers all at work during the week, usual routine

W/e 25 July 1884

Received notice on Monday that school would close on Friday noon for the holidays.
Took Standard 2 on Wednesday in Grammar and find all very week.
Johnson, the teacher of one section, seems to take no interest what ever in school work.
Closed school at 12 a.m. Friday.

21 August 1884

Registration Examined. *Signed: Arthur Haweridge,* Assist. Supt. of Schools

22 August 1884

Re-opened school on Monday morning after the Midsummer Vacation.
The children have only turned up fairly, some being away at the seaside, others either have measles or have them in the family.
Mr Haweridge examined Registers, Thursday morning
I examined Standard 3 on Thursday afternoon in the three r's.

W/e 29 August 1884

Spoke on Wednesday to the two teachers of Standard 2 on the result of the exam of their classes held last week. I threw out several suggestions as to the way in which some improvements might be gained.
Find Standard 2 very week. Spoke to the teachers about the weak points, such talking is only wasted upon Johnson.

W/e 5 September 1884

Children have attended badly during the week, especially the girls, who have to assist their mothers in nursing etc, owing to its being the Local "Tide".
These tides, I think ought to be thrust out of the Borough.
From the same cause the school was closed on Thursday and Friday afternoons.

W/e 12 September 1884

In Standard 4, on Thursday, the Time Table was not strictly adhered as I was giving that Standard hints, etc on "How to work an Exam Paper".
Mr Hanson, Chairman of the Management Committee, visited the school on Thursday morning.

W/e 19 September 1884

Mr Hanson, Chairman of School Management Committee, visited the school on Wednesday morning and gave the children a short address on the Advantages of Drawing. After which he distributed the prizes (5) and certificates (22) gained at the Draw Exam at end of Year 83-4.

24 September 1884

Registration examined. *Signed: Arthur Haweridge,* Assist. Supt. of schools.

26 September 1884

Received notice on Monday that Mr Taylor, Supt of Board Schools, would hold his Annual Exam on Thursday and Monday, 2nd and 6th October.
Mr Haweridge called on Wednesday and examined Registers.

3 October 1884

The Boards Annual Exam was conducted on Thursday afternoon by Mr Taylor, Mrs Bannister and Mr Haweridge.

10 October 1884

The Exam mentioned above was continued on Monday afternoon.
Poor attendance at school on Monday and Tuesday afternoon owing to Local Fair.
The people of this district seem to cling most tenaciously to the keeping up of these "Feasts and Fairs".
Average for the week poor in consequence.

17 October 1884

Received the Schedules referring to Exam of last week from the Office.
Work as usual during the week.
Teachers appear to be working very well with their classes.
I have today (Friday) called the attention of the Assistants to Reg.12. I have spoken to all the teachers about keeping school room tidy and careless use of apparatus.

24 October 1884

Johnson away from duties on Monday afternoon, his section of Standard 2 was placed along with Miss Irons.

Report of H.M.I. for year ending 31st January 1885

Mixed School: "The children passed a fairly good examination in the three elementary subjects. The Reading was good in the first, second and fourth standards. In the others it was very fair.
Handwriting was very good in the first and second standards, but if fell off in the standards above them. The children should be taught to hold their pen properly, a really good writing lesson is becoming quite a rarity.
Spelling was very good in the first and second standards, above them it was fair.
The composition was fair.
Arithmetic was very good in the first and second standards, fairly good in the third standard, barely fair in the fourth standard and weak in the fifth standard, and fairly good in the sixth standard. Sums requiring thought were not attempted with success.
Mental arithmetic was weak.
All together the state of the first two standards was exceedingly good, indeed the state of the first deserves to be called excellent, but the work was not equal in the upper standards.
The wretchedly bas premises are no doubt a reason for the falling off of the work in the Half Time standards.
The Board intends to provide better buildings immediately.
Under Article 109 (f) the Recitation was very goof in the first standard and fairly good in the second, third and fourth standards, it was not well understood in the fifth and sixth standards, but on the whole it was fair.

The Geography was also fair. In the fifth standard the knowledge of Latitude and Longitude was weak and Maps were poorly done".

Report of H.M.Inspector for year ending 31st January 1886

"The Elementary subjects have been very well taught in all classes except the first, in which the Arithmetic and Composition exercises were very unsatisfactory. The latter were faulty in spelling and badly punctuated and they contained many grammatical mistakes which showed that proper instruction in Composition had not been given.
The work done in the other classes was very commendable, but the reading is wanting in animation in the third standard; and in the second standard it should be distinct and intelligent.
Oral arithmetic has been too much neglected.
English has been very well taught.
The poetry has been well explained in every standard and it was repeated in a careful and expressive manner.
The boys throughout the school have now a good general knowledge of Geography but mapping has not been much improved.
The order is good and considering the bad class room accommodation and the unsatisfactory nature of the premises generally, the results of the examination are creditable to the Teachers".

"L. Irons and S. Robinson have passed fairly. I am to suggest that steps be taken to have Robinson vaccinated".

Friday very stormy especially in the morning.

Report of the H.M.I. for the year ending, Jan 31st 1887

"The children passed a fair examination. The move into more commodious premises does not seem to have forwarded the work.
Reading was not so well taught in the first standard as it is in most Infant Schools, being mere word naming. In the upper standards the Reading was neither confident, expressive, not well articulated.
The composition which was poor last year is just as bad this year and Arithmetic, which was weak in the fifth and sixth standards last year is again weak.
The same is the case with the Mapping in the fifth and sixth standards; it shows no advance upon last year although noted for imperfection in the Report.
The English was only just good enough for the recommendation of the double grant.
The Geography would have been recommended for the double grant if Mapping had been better".

Staff for the year 1887 – 8

J.W. Breare	Head, Certified, 2nd class

Report of H.M.I. for year ending 31st January 1888

"The results of the years examination show a considerable improvement.
The two first standards were very creditably taught, except for some of the Reading in the first standard which was poor.
As regards Arithmetic, out of four sums set the average number rightly worked in the second standard was three and two-thirds, and the oral answering was also good – an honourable success.
In the higher standards the Reading was wanting in distinctness and intelligence and children naturally dull or lazy seem to have been too much left to go their own way.
The sixth standard read creditably.
Handwriting is the weakest part of the work of the upper standards. There is no uniform style and the details of the formation of the letters are not well studied.
Composition is defective, the information displayed is slight and the Grammar is very often very faulty.

Recitation was excellently good in the first and second standards but the knowledge of Grammar was only fair in most of the standards.
Geography was very fair on the whole and good in the lower standards.
The Needlework is generally praise worthy and in the upper standards it was, some of it, admirable, reflecting much credit on the teacher.
The time last (music) was weak in the upper division and the voices in the second and forth standards were rather harsh.
The tone and general management of the school leave a favourable impression".

S. Robinson and E.A. Hey have passed fairly, but Robinson should attend to Geography and History. They should be informed that they are now qualified under Article 50 but not under Article 52.

Report of H.M.I. for the year ending 31 January 1889

"The results in the elementary subjects are good in the lower standards, but not so in the fifth, sixth and seventh standards where there is a great want of intelligence and smartness.
The award of the higher grant for English is prevented through the extreme weakness in Grammar of the fifth standard and the poor quality of the Recitations in the fifth, sixth and seventh standards. Grammar is in no class really good but the poems recited in the first, second, third and fourth standard were well said and understood.
Geography is well taught in the second, third and fourth standards but in the other standards there is much room for improvement.
Needlework was exceedingly good and deserves special commendation.
The grant for music was imperilled by the inability of the fifth, sixth and seventh standards to perform the time exercises".

M. Wadsworth has passed fairly but should attend to spelling and composition. She should be informed that she is now qualified under Article 50 but not under Article 5

Report of H.M.I. for year ending 31st January 1890

"The elementary work of this school has improved much. The Reading was fluent and confident except in the third standard, where a number of the children read in a laboured and hesitating manner, but the children in the higher standards are not intelligent in answering questions.
The writing as a whole was fairly good but more attention should be given to secure uniformity of slope and evenness of downstroke.
The composition is much better than last year.
The spelling was good.
The arithmetic was excellently good in the first and second standards, good in the third and fifth standards, fairly good in the fourth standard and fair in the sixth standard.
Mental arithmetic was weak in the fifth and sixth standards.
The higher grants are recommended for the class subjects for Geography with hesitation, and the Grammar of the fifth and sixth standards is less satisfactory than the other work.
The songs were well rendered.
The Needlework was exceedingly good, many of the specimens in the higher standards being models of what the work ought to be.
The good merit grant is well earnest.

F.M. Priestley has passed fairly and should attend to Geography and Knowledge of Method.
Mr Seuton will receive his Certificate in due course.

The Department agrees to the engagement of E. Singleton, for 3 years, as a pupil teacher in fulfilment of the requirements of the Code, 1st January 1890.

Copy of the Report of H.M. Inspector for the Year ending 31st January 1891.

The children have passed a very fair examination in the elementary subjects.
Reading is fairly good in the first, second and third standards but in the other standards it is far from fluent and expressive and there is but little intelligence displayed.
Handwriting is fairly good in the first and second standards but in the third and fourth standards it is defective in formation and very variable in style. In the fifth and sixth standards the writing is fair but Composition is very poor in the fifth standard and but fair in the sixth standard.
Spelling is good in the first, second and third standards but is very weak in the fourth standard.
Arithmetic is well done in the first, second, third and fourth standards and it is very fair in the fifth and sixth standards.
The singing is now good and the music tests are satisfactorily done
The class work was very fair but there should have been a better supply of maps.
One of the Physical Geography of England for the lower standards and a special Map of Canada for the upper standards.
The teacher of the third standard appeared to have made no special study of Yorkshire.
The assistant teacher taking the fourth standard has much to learn both in the art of managing and in that of teaching a class.

F.M. Priestley has passed well.

<u>Copy of Report for year ending Jan 31st 1892</u>

"This school does not make that improvement which might be expected and but little intelligence is displayed.
The first standard is however thoroughly well taught and the work of the second standard is fairly good.
In the other standards Reading is much wanting in vivacity, expression and intelligence and Handwriting is unsatisfactory, there being no evidence of systematic class teaching to produce uniformity.
Spelling is good and written Arithmetic is well done but Composition and oral Arithmetic have room for much improvement.
The Music grant is well earned.
The higher grant is recommended for the class subjects but Geography is not made as interesting a subject as it is in most schools and local Geography is insufficiently attended to in the lower standards.
There was some very good Needlework in the first and third standards".

F.M. Priestley obtained a first class in the Queens Scholarship examination. She should be informed that she is now qualified under Article 50 and 52.
E.F. Singleton passed fairly but Singleton should attend to History.

Pleased to note that the discipline of the school is improving and further that the teachers appear to be very willing and anxious to please.
Mrs Singleton visited the school on Tuesday afternoon and Mr Pearson on Thursday afternoon.
Received the Government Report which follows herewith:

Copy of Report for School year ending 31st January 1893

Mixed School: "The children have passed a very fair examination in the elementary work.
The Reading, which was often fluent and modulated, lacked an intelligent appreciation of the text by the third and fifth standards.
Spelling was weak except in the third standard where it was fair.
The Composition needs much more careful attention. The children adhere much too clavishley to the teachers model and there is an utter lack of originality and independent thought.
The class subjects have been very fairly taught.
Grammar, however, not sufficiently intelligent in the higher standards, and in the same class the answering in Geography is not general. There should be a better knowledge of the nature of a plan in the first standard".

Mr Greenwood will receive his certificate in due course.

"I have the honour to inform you that the preliminary conditions, annexed by the code to the office of Pupil Teacher, in the case of Clara Woodhead (3 years)".

"The engagement is intended to commence from the first day of January 1893".

Attendance this week has been highly satisfactory, being 92 per cent.
We have now 355 children on roll, the highest number recorded.

Copy of Government report for school year ending 31 January 1895

Mixed school. Since the present master took charge of this school a gratifying improvement has been effected both in discipline and attainments. The elementary work is now in a very satisfactory condition, although a large number of children have been admitted during the year. Special mention should be made of the interest and enthusiasm displayed in the teaching, as shown by the valuable museum and excellent collection of pictorial illustrations.
Lessons on general information topics are given to all the classes and composition is taught throughout the school with much success.
The recitation is done in good style and the scholars have a generally intelligent knowledge of all pieces learnt.
In the examination in class subjects the boys acquit themselves creditably. The fact that the girls take Geography this year for the first time accounts to some extent for their inferior answering, but making due allowances for this, they do not appear to be so much interested in their work as the boys are.

C. Woodhead has passed and C Smith fairly.
Mr Stockdale will receive his certificate in due course.

A Scholars Rambling Club was formed experimentally in the spring of this year the object being to take local excursions to places of interest and profit on Saturday afternoons.
The following journeys have been taken during the season:
School Journeys:
1. Buttershaw Berry Bottom Woods, Coley, Norwood Green and Wyke.
2. Train to Wilden, the Reservoir, Goitstock Woods, Harden and Cullingworth.
3. Electric car to Queensbury, Shibden Vale, returning by Catherine Slack and Queensbury.
All the trips were well attended and greatly appreciated by the children who evinced a keen interest in gaining – by observation, nature knowledge at first hand.
The children collected many specimens under the guidance of the teachers and derived much pleasure in showing the same to their parents and friends as well as to their school fellows on the following Monday morning.

The rambles were undoubtedly a great success – physically, socially and educationally. The conduct of the children was admirable being naturally respectful. For the success of these rambles I am greatly indebted to my colleagues who have so kindly and readily assisted by their interest and presence. Encouraged as we have been we anticipate arranging a more ambitious program for the season 1903.

18 December 1903

Miss Robertshaw and Miss Hood – P.T.'s, have been absent this week being in attendance at the Scholarship Examination.
The third quarterly examination was conducted on Tuesday, Wednesday and Thursday – the teachers changing classes for that purpose.

23 December 1903

I must express my appreciation of the able manner in which all members of the staff have worked with their respective classes.
The children too have responded to their teachers efforts and manifest a pleasing "esprit de corps". As a result the work during the closing quarter has made much progress.
