Peer Review

The work for the Marshfield School History project was split between the five team members. Each member worked on developing specific pages of the website or helping with the documentation. The scores roughly shows how each person contributed towards the building of the website and the preparation of the specification document.

Team Member	Tasks Completed	Contribution Description	Score (1–10)
Anum Ayub	Team coordination, GitHub repository setup, database integration, php pages , specification document sections	Acted as team leader, organised the project, set up the GitHub repository, and developed the database pages (Staff and Sources). Also contributed to several sections of the specification document.	9
Javeria Asghar	HTML and CSS page development, specification document sections	Developed some of the website pages and helped with styling and layout using HTML and CSS. Also contributed to parts of the specification document.	9
Laiba Waheed	Website content research, HTML and css page development, Specification document sections, instructions manual sections	Worked on webpage content and helped create pages using HTML and CSS. Also contributed to the specification document and wrote parts of the instructions manual.	9
Sehar Butt	Diagrams, HTML and css, instructions manual sections, specification document sections, testing and formatting	Created diagrams such as the use case diagram, developed some website pages and helped test the website. Also assisted with parts of the documentation.	9
Madiha Ali Kousar	Document formatting	Assisted with document formatting	6
